MAROSATA FANOMEZANTSOA

FULL-STACK DEVELOPER

Madagascar | +261 34 59 737 65 | marosataf@gmail.com | https://portfolio-marosata.vercel.app

PROFESSIONAL SUMMARY

Backend Engineer with 4 years of professional experience designing robust distributed backend architectures, high-security API validation controls. Proven track record in multi-tenant data isolation, transaction state enforcement, and high-throughput backend development across enterprise fintech, SaaS platforms, and e-commerce solutions. Expert in Go, C#, TypeScript, SQL, and cloud/on-premise storage integrations.

TECHNICAL SKILLS

- **Backend & Core Architecture: .**NET Core, Node.js/Express, Python, Spring Boot, Go, Laravel
- **ERP, Workflows & Security:** Order & Invoicing State Machines, Payment Gates, Strict Multi-Entity Data Isolation, JWT/OAuth2, API Validation
- **Database & Storage Systems:** PostgreSQL, MySQL, Oracle DB, SQL Optimization, Redis, Supabase, Qdrant
- **Frontend & API Integration:** TypeScript, React.js, Next.js, Flutter, RESTful APIs, OpenAPI/Swagger, Webhooks
- **DevOps & Testing Practices:** Docker/Kubernetes, CI/CD Pipelines, Git/GitFlow, AWS, Linux Admin, Agile Sprints

PROFESSIONAL EXPERIENCE

Senior Backend Engineer | Havet Digital *Oct 2024 – Aug 2026 (< 2 Years)*

- Engineered lightweight ERP core modules, state machines, and payment validation gates for trade and ordering workflows.
- Designed strict multi-tenant database separation architectures, ensuring zero cross-tenant query leakage across multi-entity instances.
- Implemented high-security API rejection logic and automated validation workflows for complex transactional pipelines.
- Integrated object storage services (MinIO) and mail transport systems (Stalwart) with secure AI-assisted drafting hooks.
- Developed clear RESTful API contracts consumed by modern React interfaces, working in strict two-week agile sprints.

Senior Backend & Full-Stack Engineer (Freelance) | Les Piscines de Romain *Oct 2023 – 2024 (1 Years)*

- Architected back-end service APIs and e-commerce transactional state machines handling client orders, billing, and payment processing.
- Integrated Stripe payment gateway APIs with strict rejection rules and webhook idempotency handling to guarantee financial accuracy.
- Optimized database queries and relational schema designs in MySQL/PostgreSQL to improve query execution speed by over 40%.
- Collaborated directly with executive leadership (CEO) to deliver full-stack features using Flutter, Laravel, and cloud hosting on AWS.

Backend Developer | SMMEC (Microfinance Network) *Sept 2022 – Sept 2023 (1 Year)*

- Built secure banking back-end services, financial ledger components, and administrative user controls using Java Spring Boot and MySQL.
- Designed strict JWT-based authentication mechanisms and granular role-based access control (RBAC) across core modules.
- Modeled technical architectures with UML and containerized staging and Oracle/MySQL database environments using Docker.
- Wrote comprehensive unit tests, API specifications, and technical documentation to ensure audit compliance.

PERSONAL & SIDE PROJECTS

T-Ikaly – Intelligent Cross-Platform ERP & Inventory Engine | *C#, .NET Core, ASP.NET, Entity Framework, REST API*

- Designed a multi-layered domain architecture separating business logic, data persistence, and external AI APIs for dynamic recipe and inventory allocation.

Enterprise Garage & Service Operations Management System | *Node.js, Express, Angular, MongoDB*

- Engineered state tracking for multi-role operations (Client, Technician, Manager), work order status management, and automated repair billing logic.

Developer Engineering Portfolio & API Hub | *Next.js, React, TypeScript, Vercel*

- Built a performant, high-SEO portfolio platform showcasing architectural projects, system design documents, and live interactive API demos.

EDUCATION

Master 1 Degree in Computer Science – Information Systems IT University

Bachelor's Degree in Computer Science – Software Development IT University

LANGUAGES

English: Intermediate

French: Fluent

Malagasy: Native
